

Response to Critical Court Incidents and Emergency Planning: Courtroom and Courthouse Security

Government buildings continue to be a target, just turn on the news! Courthouses and courtrooms are especially vulnerable targets due to the fact they are not only government facilities but also where our criminal justice system operates. With many potential targets utilizing the courthouse daily, including defendants, victims, family, domestic parties, judges, and numerous county officials, disruptions are on the rise.

Courthouse/courtroom incidents range from minor disruptions such as picketing to physical assault and even murder. Regardless of your experience, there is no assurance that violence will not happen in your court. The question is not “if it will happen but when?”

Course Objectives:

Violent Court Incidents/Case Studies – By examining in detail past court incidents and case studies, students will be able to begin the process of assessing their own courtroom, courthouse, parking lots, grounds, and current security systems and protocols.

Legal Issues of Courtroom/Courthouse Security – This session will cover case law in order to prepare each student with a working knowledge of what they “can” and “can’t” do legally.

Overview of Courtroom Security – This session will cover and discuss profiles of those involved in courtroom/courthouse incidents, various stages of the proceeding in which incidents and disruptions are more likely to occur, and prepare the students **with a background in statistics to better prepare them for potential incidents.**

Daily Operational Concerns for Courtroom/Courthouse Security – By examining the “5 Elements of Courthouse/Courtroom Security” a foundation for security begins to develop with court security personnel, court tenants, policies and procedures, and the securing of the physical facility.

Prisoner/Defendant Security – This session will cover how to prepare for and minimize disruptions from in-custody defendants, transportation pitfalls, various restraints, communications, searches, juveniles, and a myriad of topics dealing with court appearances.

High Risk/Critical Situations – This session will be devoted to high-risk trials, sequestered juries, protests, and many other situations where there is time to prepare, implement and execute an appropriate plan to mitigate the risks.

Bomb Threats/Natural Disasters and Other Emergencies – There is the potential for a wide variety of emergency situations to arise at a courthouse, oftentimes with little or no warning. This session gives the students an overview of potential problems and prepares them with plans and procedures to implement to properly prepare for these types of emergency situations.

Sovereign Citizens – This session will give an overview to all students of the potential issues and the tactics used by sovereign citizens, from simple disruptions to dangerous life-threatening situations.

Courtroom/Courthouse Survey – This session will enable the students to return and complete a physical site survey of their courtroom/courthouse. They will receive a sample survey to utilize and/or modify to fit their individual setting. This will also be the basis for requesting additional resources and security personnel.
