Cell Phone Evidence: From Seizure to Courtroom

Course Overview

Cell phones play a critical role in modern investigations, yet many officers are unaware of the full range of ways these devices can help solve crimes. This course provides step-by-step instruction on gathering, preserving, analyzing, and presenting cellular evidence in court. Attendees will gain the knowledge and practical skills needed to properly handle cell phone data from seizure through trial preparation.

Course Overview

Participants will learn to:

- **Understand the Three Types of Cellular Evidence:**
  - The Device
  - The Records
  - The Clouds
- **Preserve All Forms of Cellular Evidence** to maintain integrity for court
- **Identify Key Variables:**
  - Types of Phones
  - Cellular Providers
  - Cloud Storage
- **Conduct Forensic Examinations of Devices:**
  - How different forensic software yields different results
  - Types of data that can be recovered
  - Methods for proving ownership through device data
- **Examine Cellular Records:**
  - Understanding network differences
  - How to properly read and interpret the data
- **Work with Providers:**
  - Information available when a suspect is identified
  - Information available when no suspect is known
- **Map Locations** using different location-based results.
- **Prove Ownership Through Records,** even with pre-paid devices.
- **Identify Additional Evidence** such as void calls, voicemails, and call forwarding
- **Conduct Forensic Examinations of the Cloud:**
  - Which cloud services are available
  - How cloud data can aid an investigation

Seminar Agenda

Tuesday, February 2, 2027

8:00 – 8:30 am — Registration

8:30 – 10:00 am — The Three Types of Cellular Evidence
- The Device
- The Records
- The Clouds

Preserving all of the Different Types of Cellular Evidence

10:00 am – 12:00 pm — Identifying the Appropriate Involved Variables
- Types of Phones
- Cellular Providers
- Cloud Storage

12:00 – 1:00 pm — Lunch (On Your Own)

1:00 – 4:30 pm — Forensic Examinations of Cellular Devices
- Different Forensic Software Gives Different Results
- What Type of Data to Expect
- Proving Ownership Through the Data

Wednesday, February 3, 2027

8:00 am – 12:00 pm — Forensic Examinations of the Records
- How the Networks Differ
- How to Read the Data

What Providers Can Supply:
- When You Have a Suspect
- When You Don't Have a Suspect

Mapping of Locations – Different Location Based Results

Proving Ownership Through the Records, Despite Being Pre-Paid

Identifying Void, Voicemails, Call Forwarding and More

12:00 – 1:00 pm — Lunch (On Your Own)

1:00 – 3:00 pm — Forensic Examinations of the Clouds
- Which Clouds are Available

What Providers Can Supply:
- When You Have a Suspect
- When You don't Have a Suspect

3:00 – 4:30 pm — Comparing the Three Types of Cellular Evidence
- What is Missing on the Device that is Still in the Records
- What Data is in the Clouds that is not on the Device

Thursday, February 4, 2027

8:00 am – 12:00 pm — Writing the Forensic Report

Preparing the Data for Trial
- The Best Ways to Display the Data to the Judge and Jury

Testifying About Cellular Data

12:00 pm — Certificate Presentation

Instructor Bio

Glenn Bard is a retired Pennsylvania State Trooper First Class and a U.S. Veteran of Operation Desert Storm. In 1999 Glenn began Computer Crime Investigations for the Pennsylvania State Police and has since investigated crimes across the United States ranging from Child Pornography to Criminal Homicide. Glenn has also conducted forensic examinations for City, State and Federal Law Enforcement Agencies including the FBI, US Postal Inspectors, and I.C.E., as well as Foreign Governments.

Glenn has been certified as an expert in numerous states, the U.S. Virgin Islands and the United States Federal Court System in the areas of Digital Forensics, Cellular Technology and Computer Technology.

He has been a speaker for organizations of all sizes and types, both public and private, to include the American Academy of Forensic Sciences, World Security Congress, and hundreds of law enforcement agencies, law firms and universities.

Several of the cases Glenn has worked have received National coverage, to include Fox News, Dateline, the Associated Press, Yahoo!, the New York Times, and many more.

Glenn has received numerous awards during his military and police career, including Honorable Discharges from both the United States Army and the Pennsylvania State Police.

He developed, created and implemented certifications for two forensic software companies used by agencies around the world.

Glenn is the Chief Technical Officer for PATCtech, overseeing all Digital Forensic and Data Services. Glenn has acted as technical consultant and/or personally developed Computer Forensic Programs at multiple Colleges, to include Westmoreland County Community College where he was a Faculty Instructor prior to retiring.
